

A Festival for the Senses

Corporate Creativity

For Corporate/Private Performances:

The A.C.E. Comedy Show

A.C.E., an international comedy trio, creates innovative character driven comedy shows bending all possible barriers. They take their audience on a wild ride through all five senses with comedy, music and the completely unexpected. The open-ended and spontaneous nature of The A.C.E. Comedy Show allows for audience input and hilarious unpredictability. A.C.E. strives to break down the conventions of traditional theater, bringing the audience into the action and (often) on to the stage to make for a highly entertaining and memorable experience. A.C.E. can flavor shows to include pieces and characters based on your industry, meeting theme or just juicy tidbits from around the office. Why the name A.C.E.? An American, A Canadian & An Englishman. Three nations, one great show.

For Team Building:

Adventures in Comedy

Fun and games are often seen as entertainment and out of place in a business environment, but actually they contribute greatly to building confidence and team spirit. Through theatre games, performance opportunities and unexpected twists and turns, Adventures in Comedy engenders an atmosphere of enthusiasm, cooperation and team work. Using the principles of spontaneous theatre, cliques are cleverly dispersed and participants improve their ability to think on their feet, accept what comes their way and effectively communicate with co-workers. The event culminates with a fun, light-hearted performance by and for the participants which deepens connections while providing hilarious memories which will last long after the event has ended.

For Character Walk-Arounds & Imaginative Interludes

A.C.E. Comedy Garnish

A.C.E. brings outrageous characters and interactive spontaneity to enhance a party, draw attention to a theme or create a fun, unexpected "garnish" to any business meeting or corporate event. A.C.E. can even put their characters on stilts to amplify the fun and take your event to new heights. Also, A.C.E. creates fast-paced, hilarious interludes that are a marvelous way to take a break between meetings, entertain during coffee breaks and continue the theme of your event in to unexpected areas. Original characters and interludes can be developed to reflect your meeting, event or product.
